ROUTE OF WESTERN MARYLAND ENTERING WEST SIDE UNDECIDED.

Statement of Chief Engineer Palmer in Charge of Pennsylvania End of the Extension.

FOUR HUNDRED MEN ON JOB

Between Conneltsville and Confluence, But Next Few Weeks Will See the Work Under Full Head With Full Crews Employed by Contractors.

Although the contractors on the Western Maryland line will not have their full forces working for a few weeks yet, over 400 men are on the job between here and Confluence. Two camps have been established at Confluence, one at Huston, one at Ohio, and several at Indian Creek. The greatest progress is being made at Indian Creek just now, where the contractors had the advantage of an early start.

West of Indian Creek but little work is being done. The route is being cleared of timber and underbrush in order that the graders may lose no time when they once get started.

"We have not yet decided upon the route by which to enter Conneltsville," said J. I. Palmer today. Mr. Palmer is the engineer in charge of the Conneltsville & State Line railroad's interests in this section. "The path of the survey is being cleared but that is the only work being done just now."

Mr. Palmer makes his headquarters in Conneltsville and keeps in close touch with the progress being made by the contractors on the job. He says the next few weeks will see the real construction of the route started as by that time the contractors will have a full crew of men and all equipment on the ground.

From Morgantown comes the report that the money to build the new line from the Pennsylvania State line to Fairmont is furnished from the same source that is to pay for the new line from Cumberland to Conneltsville. The Pittsburgh & Lake Erie, this rumor says, is footing the bill, with the Rockefeller interests supplying the money.

Morgantown financiers have reached the conclusion that the New York Central, carrying out a well-defined plan in the construction of a line to tap the West Virginia coal fields and open an eastern outlet for the Pittsburgh & Lake Erie coal traffic. The Lake Erie now sends its coal to lake ports, but with a new-bond connection the coal can be sent east and the road will not suffer from adverse conditions in the lake markets.

Burgess Cameron Makes Statement About Dynamiting

Burgess D. K. Cameron of Dunbar states to The Courier that he never offered the suggestion that any of the buildings be dynamited during the fire there early yesterday morning. Burgess Cameron was at home and did not appear on the scene of the fire, knowing that younger and more active men could do all that was to be done. Burgess Cameron said:

"I was at home all evening. A man of my age would have only been in the way of the fire fighters. Early in the morning the policeman came to my house and said they wanted to dynamite a building but the Conneltsville boys would not do it without permission from me."

"I told the officer that if the firemen, in their best judgment, deemed it necessary to use dynamite, they might as ahead, but not to use the explosive unless absolutely necessary. I offered no suggestion that dynamite be used."

Fire Chief Mitchell is responsible for the statement that Burgess Cameron suggested the use of dynamite.

BUILDING STILL BURNS.

Fire Not Yet Extinguished in Wilson & Wabash Building.

DUNBAR, July 7.—(Special.)—At noon today the ruins of the Wilson & Wabash building, one of those destroyed in yesterday morning's big fire, was still burning. From the fiery mass of twisted steel, crumbling bricks and mortar dense clouds of smoke continue to rise. A stream of water is kept on the fire although there is little danger of it spreading to other property.

Shoots Child and Husband; Then Suicides

CHICAGO, July 7.—Fatally wounding her husband and three year old daughter, Mrs. Emma Mulsaw today committed suicide by swallowing carbolic acid. There is no hope for the recovery of her victims. Jealousy on the part of the wife and disposition by the husband caused the tragedy.

Last night when Mulsaw returned home his wife upbraided him. He left the house and did not come back until this morning. As his little daughter Anabel greeted him with a kiss the wife opened fire. The first bullet hit the child, inflicting a fatal wound, and the rest struck Mulsaw.

Neighbors say Mulsaw has been dissipating for weeks and his wife was driven insane from worry and jealousy.

The service of the American Union Telephone Company was restored at Dunbar today after having been put out of commission by the fire there. The switchboard was taken out of the burned Dunbar block in good condition. It was not burned and what water that washed in on it did not affect the interior installation.

An emergency cable was strung and the company is occupying temporary quarters in the First National Bank building. Under the personal direction of District Manager J. T. Burke, the telephone linemen made record time in restoring the service.

BREAKS UP THE "GREATEST SHOW."

Humane Officer Ebert Takes Its Prize Mule Into Custody.

PROPRIETOR ABUSED ANIMALS

There Are 24 People and 10 Horses in the Company, but Desertions Come Through Fear of More Legal Entanglements.

Special to The Courier.

UNIONTOWN, July 7.—Humane Officer Howard Ebert has the distinction of just about breaking up the "P. D. Dunlap's Greatest Traveling Show on Earth." He was the cause of putting Mr. Dunlap, who is manager, treasurer, secretary, etc., behind the bars for a couple of days at the least.

When placed under arrest on Tuesday at Oliver No. 3 charged with cruelty to animals he was unable to furnish bail, although he is said to own property to the value of \$10,000 or over, in Cambria county. After paying part of the fine yesterday he begged to be allowed to show that evening at Oliver No. 3, assuring the officers that the receipts would more than pay the fine. This morning Officer Ebert heard that the company was preparing to disband, and he at once put Dunlap under arrest, again.

This time he put up a trick mule, valued at about \$150, as security, and the animal is now at the stables of J. V. Tedrick in Uniontown. Dozens of people have visited the stable today as the mule is said to be one of the best in the country. It was formerly the property of Harman & Bailey.

Dunlap, who is from Barnesboro, is said to be one of the oldest show men in the country. The aggregation now out is the original Dan Rice company. He started in the business first with the Wallace show as a trapper, performer, and later joined Barnes & Bailey as a clown, making a big hit before the public with the trick mule, George. There are 24 people in the company, and 10 horses. Five of the last were disabled, and were disposed of following the prosecution by Ebert.

Dunlap was indignant at his arrest, and inquired where they got such laws. "We manufacture them," replied the officer.

Several members of the Dunlap troupe have deserted, fearing that they, too would be placed under arrest. The show will appear at Connettsville No. 1.

Black May Get a Recount for Congress

PITTSBURGH, July 7.—Dr. Robert J. Black may get a recount of the votes cast at the recent Congressional primary. Statements were filed and placed on record in the Allegheny county today. Judge Cohen made the fact plain that the county commissioners will not be restrained from considering new petitions which have been filed by Black's attorney asking for a recount of the ballots.

Judge Cohen said that the injunction restraining the commissioners from acting under the Black petition only because the form in which it was drawn up was not legal.

Held for Court for the Theft of a Stick Pin

Ernest O'Connell, who claims that he has been a resident of Conneltsville for the past few months, was arrested yesterday afternoon in a West Side bar by Constables S. E. Nelson and William Roland, and this morning was given a hearing before Squire P. M. Dittmore of the West Side on a charge of robbery from the person. The information was made by County Detective Frank McLaughlin.

O'Connell was charged with stealing a heart pin from a patron of the bar. He was later arrested and placed in the West Side police station pending his hearing this morning. At the time the heart pin was taken another man who was also in the bar missed a pocket book containing several dollars. Another party is supposed to be implicated in the robbery, but as yet there is no clue to lead to his identity.

O'Connell returned the stick pin and following the hearing he was taken to the West Side police station and if bail is not secured he will be taken to Uniontown and committed to jail to await a court hearing. The defendant claimed that he came to Conneltsville a few months ago to assist the steward at a local club and that on his arrival here, the work was refused him.

GRADE PLEASES SYNDERTOWN.

Street Committee and Engineer go Over Proposed Line With Residents.

A IDEEP CUT AND BIG FILL Will Be Required But If This is Ever Done the Thoroughfare Will Have An Easy Grade for Travel—Only One Property is Damaged.

The Street Committee, Borough Engineer J. B. Hogg and a score of Syndertown property owners met last evening to discuss the proposed grade along the Syndertown road. The stakes have been placed by the Borough Engineer and proved satisfactory to a majority of the property holders interested. Even if the grade is established it is hardly likely that work on improving the road will start for some time owing to the expense involved.

Beginning at the intersection of the paved street at the intersection of Fairview avenue and Snyder street the new grade provides for considerable cutting until the hollow is reached. There filling will be necessary. A cut is proposed beyond the hollow.

At the highest point in the Syndertown road along the Hill Grove cemetery the grade provides for a six foot cut. In the hollow the fill would amount to six feet. Beyond the hollow the deepest cut would be only two or three feet.

If graded, the slope from the beginning of the road to the hollow would be about six per cent, with a five per cent grade beyond. The steeper property, in the hollow, would be the only one damaged by the proposed grade. It would be necessary to raise the Summer store and residence a couple of feet or so after the grading is done.

Although the Street Committee has not decided whether to recommend the adoption of the grade, this will likely be done.

The contract for the 2,000 box cars was awarded to the South Baltimore Car Works, located on B. & O. tracks at Curtis Bay, Baltimore. In addition to being especially adapted for the automobile trade these cars can be used in any service where box cars are required.

Banana Peel and a Nickle Figure in a Robbery

Special to The Courier. UNIONTOWN, July 7.—A banana peel was the cause of some excitement on Main street yesterday afternoon. A laborer was on his way to work when the fruit-skin interrupted him in front of the Second National Bank building. He sat down rather suddenly and what he took for a change he had about him took flight in all directions. A negro standing nearby, spotting a nickel that had rolled near his foot, picked it up with his shoe and then endeavored to count the windows in the sky-scaper.

The unfortunate picked himself up; also what coin was visible, and departed. Officer Joseph Brown, however, had his eye on the colored fellow. He waited until he had picked up the five cent piece and then nabbed him. The negro insisted that the money belonged to him, but Brown knew better. A large crowd collected during the argument, but as the owner of the coin had disappeared the man was released.

Boy Caught in Turntable; May Lose Leg

Special to The Courier. UNIONTOWN, July 7.—Allen Wyatt, a small Uniontown boy, was the victim of an accident this morning. While playing ball with a number of companions of his own age the lad dropped a ball into the B. & O. turntable. When he got down in the table to get the ball, some of the other boys not thinking of the lad being in a dangerous position turned the table and the Wyatt boy's right leg was caught and crushed. He was immediately removed to a doctor's office where an examination of the wound was made. It is feared that the leg may have to be amputated.

Hansen the appearance of the dog catcher, for he is needed. Tom Winebrenner is hobbling about with a bad ankle, which was caused in an unexpected way. He says that he was going along as usual when some infuriated fellow let fly a club at a prowling dog. The dog eluded from the club, which was aimed with far less skill than power, and Winebrenner was hit on the ankle. The dog gave a howl of devilish glee and escaped scathless.

Y. M. C. A. Boys Off to Camp Today; Will Pitch Their Tents at Rogers' Mills.

Bright and early this morning things were astir at the Y. M. C. A. rooms, and boxes, trunks and suit cases, belonging to the 25 boys who start on No. 48 for Camp Mohican at Rogers' Mills, were hustled out of the building as though it was moving day. There was the "smile that went come off" on the face of everyone, and well there might be, for they will have the time of their lives for the next two weeks, living out next to nature and enjoying everything that a boy loves. The boys were in charge of Secretary Chase and on arrival at the camp will be assigned something to do for each day, that the routine work may not be burdensome on any one. Parents and friends of the campers are welcome to visit the camp any day, and a special visitors' day is being planned for one week from today, the 11th, when a program of unusual interest will be carried out. Visitors who care to be entertained at meals can do so at the small expense of 25 cents each. The following boys were in the party this morning: Paul Wetherell, Leroy Berkoy, Raymond Balesky, W. P. PERRYPOLE INSTITUTE CLOSES A FINE TERM

There Was a Class of 28 to Take the
Teachers' Examination on
Saturday.

The George Washington Normal Institute at Perryopolis closed a very successful term on last Friday. There were a large number of students enrolled in both the teacher's training and primary departments. The former was conducted by J. H. Snyder, principal of the Perry High School, and the latter was in charge of Oliver T. Clark of West Haven. Both have had a wide experience in teaching and all the pupils were satisfied with the success of the term. Prof. J. H. Snyder left on Sunday morning for Boston where he will attend a meeting of the National Educational Society to be held there from July 1 to 6 inclusive. From Boston Mr. Snyder will go to Cambridge, Mass., where he will attend the Harvard University Professional Training School for the summer term which ends on August 20.

Twenty-eight, a stronger class than any previous year, took the teachers' examination in the High School building on Saturday and if they are all successful this part of the State will be well supplied with teachers.

BOXING AT MT PLEASANT.

Thursday Several Bouts Will Be Put
on at the Coke Town.

In addition to the big Old Fellows' parade, Thursday evening of Mt. Pleasant's Old Home Week is to be featured by a big boxing show. In the main bout Joe Getz, the champion lightweight of Western Pennsylvania, is to meet Red Robinson of Pittsburgh. Robinson's showing during the past season has been such as to assure the lovers of boxing a great contest when he meets Getz on Thursday night. In the semi-final Young Daily, the Larabie bantam, who on Saturday night last knocked out Jody McFadden at Old City Hall, in Pittsburgh, and who is now looking for a match with Fatsy Cunningham, will meet Roy Miller, of Scottdale, a new comer in the field, but one who shows all the earmarks of a champion.

The preliminary will bring together Young Nealon of Jeannette, and Al Garber of Pittsburgh, two welterweights, who have been making things decidedly unpleasant for all opponents during the year.

CORNER STONE LAYING

Of New St. Thomas Church at Foot-
dale on July 17.

Bishop J. H. Canavin of the Pittsburgh diocese of the Roman Catholic Church will lay the corner stone of the new St. Thomas Roman Catholic Church at Footdale Sunday, July 17. The exercises will commence promptly at 12 o'clock and a number of priests from Western Pennsylvania will attend.

Rev. John Kepara is priest of the parish. The St. Thomas Church was destroyed by fire a few months ago and the building and all its interior furnishings were destroyed.

STOCK SEASON REOPENS

Taylor Stock Company in a Beautiful
Production of "Carmen," Monday.

Harry Moore and the Taylor Stock Company in a repertoire of complete scenic productions, will open a summer engagement at the Soloson theatre next Monday night in a beautiful production of "Carmen." This play has a world-wide reputation both in opera and drama and is added to the Taylor repertoire after a careful analysis of its worth and the moral lesson taught. It is the aim of the management of this organization to produce nothing but plays with a good moral tone and to move to the public that the theatre is not only a place of amusement but an institution of learning as well. The Taylor Stock Company is one of the strongest organizations of this class now on the road. They carry special scenery for their plays and all of them are staged in a worthy manner. The company is composed of 12 people headed by the well known comedian Harry Moore and the talented soprano Leona Lovell. Other members of the company are Ethel Hunkler, Zula Ellisworth, Estelle King, Hattie Mason, Warren Burrows, John McKenna, Harry McCabe, Franklin Fuller, Harry Weston, Kendall Bartlett, William Mallette and Guy Hamilton. Three plays will be presented each week with matinees on Wednesday and Saturday. Ticket prices will be 10 cents to all parts of the house for matinees and 10, 20 and 45 cents at night. Seats for any night in the week may be secured in advance at the box office at the theatre.

APPEARING OLD

Acts as a Bar to Profitable Employ-
ment.

You cannot afford to grow old. In those days of strenuous competition it is necessary to maintain, as long as possible one's youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair and kills the hair.

Nowhere is Herpicide so effective as it is in the hair. Herpicide makes an elegant hair dressing as well as Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

MUSIC CALMS PASSENGERS

While Blazing Excursion
Steamer Rushes for
Pier.

DISASTER IS BARELY AVERTED

Sister Vessel of ill-Fated General
Steamer Catches Fire, While Coming
From Forty-Five Passengers
Aboard, But No Panic Ensues.

New York, July 7.—The old wooden three-decker Grand Republic, a sister ship of the ill-fated excursion steamer General Slocum, caught fire while passing through the Narrows on her way to New York from Far Rockaway and hurried full steam ahead for the Crescent A. C. pier, on the Brooklyn shore.

Her forty-five passengers were all landed safely and the fire was extinguished with \$2,500 damage.

The fire started in the galley and spread quickly through the wooden superstructure. There was no panic. The women were badly frightened, but the crew had no trouble in keeping them in hand, and the children were so pleased with the music of the band, which kept playing bravely through the dash for shore, that they never knew their danger.

The spectacle of the side-whorl, somewhat bigger than the hulkless General Slocum, but reminiscent of her, rushing into the upper bay trailing smoke and screaming, drew a fleet of steam craft toward her, all ambitious to take part in a rescue act. If there should be need of it, or to assist in putting out the fire. But the skipper kept right on his course going at top speed and the best that the pilots of a dozen tugs and the iron steamboat Cygnus could do was to look on as they heaved for the big boat.

It took the skipper less than six minutes, with the help of a flood tide and a brisk southerly wind, to run up alongside the Crescent city pier. Men of the Crescent grabbed the ladders that were hurled to them from her and deckhands leaped from the rails to the other pier and helped to make the endangered ship a safer fast.

Secretary Fisher was unable to find how the fire was started, but the impression of some of the officers was that it was due to the flare of a super-heated stove pan. An insurance man interested in the steamer said that the damage was between \$2,000 and \$4,000. The engines were not affected.

PHILIPPINE HERO DIES

John Campbell of Fighting Tenth
(Pa.) Regiment Expires.

Greensburg, Pa., July 7.—John Campbell, a hero of the famous Tenth Pennsylvania regiment campaign in the Philippines, who was taken from Mt. Grotto to Manila in chains, died here in an ambulance en route from the Westernland hospital to his home, near town. He had been a patient in the hospital for several weeks.

Campbell's greatest feat was at the battle of Baguio river, on the island of Luzon. Across a deep expanse of water the little brown man, after a hot fire for several hours, finally ran up a white flag. Campbell and Ezra Ruff swam the river, secured the sword of the Filipino commander, and, returning, presented it to General Funston, who declared it to be an act of bravery unequalled in the war.

The police of Leechburg and other towns are searching for Frank Martello, for whom a warrant has been issued in connection with Botticelli's death. Martello made his escape after being chased by a posse.

Started Flight at Turtle Creek, Pa., in
Which 25 Were Hurt.

Pittsburg, July 7.—Twenty-five persons were injured, some seriously, during a riot near the New York and Cleveland Gas Coal company's mine at Turtle Creek, following a heated argument among employees over the outcome of the Jeffries-Johnson fight. Sticks, stones and knives were used by the men in the fight which followed the declaration of one man that he favored Johnson. Nine of the participants were arrested on information of Constable Milo Stauch.

New Type of Christianity.
Chicago, July 7.—The rise of a new type of Christianity is heralded in the current number of the Biblical World, organ of the University of Chicago divinity school. It will be ethical, scientific, social and altruistic. Biblical fables and stories that conflict with scientific truth are to be abandoned.

TRACY'S NERVE.

Operated on For Appendicitis, He
Amazes the Physicians.

Columbus, O., July 7.—William Tracy played a mean trick on the physicians at a local hospital where he was operated on for appendicitis. The attending physician had ordered the nurse to refuse him water for a certain period, as is customary in such cases.

Tracy's thirst at last became unbearable and within twenty-four hours after his appendix had been removed, and during the absence of the nurse, he got up, dressed, walked out of the hospital and started for home. On his way he stopped at a saloon, drank two glasses of beer and two bottles of pop and then proceeded on his way.

Arriving at home he threw the members of his family into hysterics by his sudden and unannounced appearance, but quickly reassured them that he was all right.

The attending physicians said that never before in their knowledge has such an incident happened. They said that the trip, together with the attending features, water, beer and pop would have been enough to kill anybody. But it doesn't affect Tracy, who now recuperates comfortably in the front room at the family home and is rapidly recovering from the operation.

NO SENATORSHIP FOR BRYAN

Peerless Leader Makes Positive An-
nouncement to That Effect.

Lincoln, Neb., July 7.—William J. Bryan has given out another statement declining to be a candidate for United States senator and intending to discourage further activity among his political supporters in that direction. In it Bryan says he believes he can work to better advantage without being a candidate for any office.

"I stated some months ago that I was not a candidate for the senate and did not seek to be. I told inquiring friends that while I would not promise anyone not to be a candidate I regard the possibility of my becoming a candidate as too remote to be considered by anyone desiring to be a candidate and I was glad when others announced their candidacy. There were a number of reasons which combined to convince me that it would not be advisable for me to enter the race. The reason was that I saw this fight on the liquor coming up and thought I could do my duty better without being hampered by a candidacy for any office. Later developments have justified me in the decision not to be a candidate."

PICTURE MEN WILL FIGHT

Do Not Intend to Lose Anticipated
Profits Without Struggle.

Reno, Nev., July 7.—The moving picture men are up in the air. They thought they had grabbed a fortune when they bought the fighters' share of the fight films, but today they are wondering if it is a lemon they have picked. From various parts of the country comes news that the pictures will be barred.

One of the wealthiest men behind the picture racket said: "We will fight for our right everywhere. It will show and melodrama depicting the worst crimes on the criminal calendar are allowed in show houses I think it is hardly right to bar legitimate moving pictures. Anyhow we will give them all a fight. Now, just wait and see."

CLOUDBURST DOES DAMAGE.

BEVERIDGE AMONG VISITORS

Ex-President Says Stories About Him
Indorsing Polindexter's Candidacy
For Senate Is All a Mistake—Noth-
ing Goes, Says Teddy.

Oyster Bay, N. Y., July 7.—Colonel Roosevelt is again entertaining today at his home on Sagamore Hill a number of insurgents. The real dyed-in-the-wool radicals are here and there is much speculation as to what is going on at the colonel's home. Senator Beveridge of Indiana and Congressman Hamilton Fish are among those present at the conference.

Colonel Roosevelt is somewhat wroth over the stories concerning his conference with Representative Miles Polindexter of Washington, in which he was quoted as indorsing Polindexter's candidacy for the United States senate. The colonel dictated this statement:

"Mr. Roosevelt will see very many senators and congressmen and assemblymen and other public officials representing all phases of political opinion. He declines to be responsible for any statements excepting those which he himself makes. He has said nothing and intends to say nothing as to any contest for a nomination. If he has anything to say on such a subject it will be over his own signature."

All that Mr. Roosevelt said in this case was that he was pleased to find, as he had expected from Mr. Polindexter's past record, that Mr. Polindexter was in hearty sympathy with Mr. Roosevelt's views as to conservation and similar subjects. Mr. Roosevelt expressed no opinion about the senatorial contest, and Mr. Roosevelt believes Mr. Polindexter is not responsible for the statements that have appeared. Certainly in so far as these statements have quoted Mr. Roosevelt, except as above stated, they had no foundation whatever in fact."

A delegation from the Pittsburgh civic commission asked the ex-president if he'd make a speech before their organization. The colonel accepted and will deliver a public lecture in Pittsburgh this fall. He will probably talk to the Smoky City folks on municipal problems, which, in their town, are complicated with the Ten Commandments and the penal code.

You will be agreeably surprised at its abundant pure white
lather, and how readily it lathers in hard water

It kills all germs and odors, and removes the odor of perspiration, and is especially beneficial in the bathing of the feet

Royal 4 in one—Hand, Tooth, Metal Polish, Window Cleaner

As a HAND SOAP it excels all others in removing dirt,
paints, stains and discolorations quickly, leaving the hands
smooth, nice and clean. Mechanics, miners, and all laboring
men prefer it to any other hand soap, and for bathing purposes
its quick cleansing qualities are appreciated, and on account of
its friction gives a healthy glow and feel to the skin.

As a TOOTH SOAP it imparts a high polish to the teeth
without injuring the enamel, improves the health of the gums, removes
quickly the tartar and discolorations, and is of the most
economical and satisfactory dentifrice made

As a METAL POLISHER it is guaranteed NOT TO
SCRATCH. Unsurpassed for cleaning and polishing all metals,
gold and silverware, tinware, bath tubs, mosaics, tiling, brass,
copperware, etc. Applied by rubbing on the lather and rubbing
dry with soft cloth or chamois.

As a WINDOW CLEANER it is a wonder. Cleans quickly
and gives a high polish. Applied by rubbing on the lather, leave
dry, and then wipe clean with soft cloth or chamois.

In Complete Readiness--The Great July Clearance Starts Friday

When the captain clears his ship for action, everything goes overboard, except the necessities to carry on the battle. No matter what the value of the things thus disposed of—they must go, to allow absolute freedom for the business of war. This July Clearance Sale is very similar. While no such radical means are employed, a complete clearance is necessary for the business of merchandising. The price-cutting has been so thorough and deep, that

the real values are lost sight of, in the endeavor to clear out all accumulated summer stocks at one swift stroke. Space for incoming Fall Goods is of more value to this house than the dollars and cents value of the goods to be disposed of.

Room on counters, shelves and racks is just as necessary to this business at this moment, as is the clear decks of a man-o-war in action.
